This Miscellaneous Electronic Submission and the amendment to the 30-Day Post General Report is being filed in response to the Commission's letter dated May 13, 2005.

While using the new Levin account option, the Committee has tried in the utmost of good faith and reliance on the available guidance, to establish procedures that result in a complete and accurate use of the new Levin account option. In light of the difficulties and ambiguities in the new law and regulations concerning the new Levin accounts, the limited available guidance, and in anticipation of greater guidance from the FEC which would enable the Committee to completely and accurately use the new Levin Account option, the Committee closed its Levin account, and does not intend to re-open (or use) the Levin account option until at least 2006, in anticipation that the law and regulations, and will, of course, independently monitor these changes. The Committee will establish a separate allocation account, to be treated as a federal account for reporting purposes, and to be used in connection with Federal elections; in particular Federal Election Activity. In such case, Committee procedures will require, that the Committee transfer funds from its Levin account to the allocation account to properly cover allocable expenditures or disbursements for Federal Election Activity from that allocation account, which was established for that purpose.

In further response to the Commission's letter, the transfer of funds has been removed since no funds were transferred into an allocation account as previously disclosed. All totals now reconcile. Specific disbursements outlined in the Commission's letter have been moved from line 21(b) and are now reflected on line 30(b).

In further review of the amended report a typo in the amount of the Executive Press check was corrected.
